

BOXER SPIRIT

WHERE PAST MEETS FUTURE

Our Urban G/S – ready for dust and dirt

We prepare the R nineT Urban G/S for proper off road use

Our modification proves it: The dark blue Urban G/S is an eye-catcher – but we don't restrict ourselves to just altering its paintwork. Due to our Wunderlich raised suspension chassis (by 70 mm) and the proven adjustable paralever bar, the G/S is transformed into a machine, fun to ride, not only on tarmac. The knobby tires are by no means fancy attachments.

When the going gets tough, our G/S Scrambler gets going. Both machine and rider are properly protected with our crash bars finished in vehicle colour, complemented by the dark hand protectors and various other safety items from our vast product range.

By the way – another contribution to safety for the single seat rider is a practical carrier behind his back, styled in memory of bygone twin cylinder days. The small rear mudguard and the perfectly suited headlight cover are of convincing functionality just like the painted competition number plates and a large variety of our other well designed components.
